MIRASOL RESOURCES

Cautionary Statement

This presentation contains certain statements that may be deemed “forward-looking statements”. All statements in this presentation, other than statements of historical fact, that address future operations, resource potential, exploration drilling, exploitation activities and events or developments that the Company expects to occur, are forward looking statements. Forward looking statements are statements that are not historical facts and are generally, but not always, identified by the words “expects”, “plans” “anticipates”, “believes”, “intends”, “estimates”, “projects”, “potential” and similar expressions, or that events or conditions “will”, “would”, “may”, “could” or “should” occur. Information inferred from the interpretation of drilling results and information concerning mineral resource estimates may also be deemed to be forward looking statements, as it constitutes a prediction of what might be found to be present when and if a project is actually developed. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in the forward-looking statements. Factors that could cause the actual results to differ materially from those in forward-looking statements include market prices, exploitation and exploration successes, and continued availability of capital and financing, and general economic, market or business conditions. Investors are cautioned that any such statements are not guarantees of future performance and actual results or developments may differ materially from those projected in the forward-looking statements. Forward looking statements are based on the beliefs, estimates and opinions of the Company’s management on the date the statements are made. The Company undertakes no obligation to update these forward-looking statements in the event that management’s beliefs, estimates or opinions, or other factors, should change, except as may be required by applicable law.

This presentation may use the terms pit constrained mineral resources estimate and indicated resource. The Company advises that these terms are recognized and defined in Canadian securities regulations (under National Instrument 43-101 “Standards of Disclosure for Mineral Projects”). Investors are cautioned not to assume that any part of or all, of the mineral occurrences in these categories will ever be converted into reserves.

All material project information in this presentation has been previously disclosed to the public by Mirasol.

Tim Heenan (MAIG), President for Mirasol has reviewed and approved the technical content of this presentation and is a Qualified Person under NI 43 -101.

Mirasol - Key Highlights

- Leading exploration company with a track record of success

- \$60 million liquidity event in 2012 from the discovery and sale of the Joaquin Project

- Conservative share structure with significant insider ownership

- Quality copper, gold and silver exploration projects

- Focused on highly-prospective and mine-friendly jurisdictions of Chile and Argentina

- Established in-country permitting and operating experience

- Strategic land position in the high-profile Vicuna District

- Successfully executed on strategic business development initiatives to monetize non-core assets

- 2026/27 exploration season about to launch at flagship Sobek Project

Pipeline of Opportunities - Unlocking Value from Portfolio

Virginia Silver Deposit - Monetizing a Non-Core Asset

Agreement to Purchase

- US\$8.0 million sale to Ampere Metals over 5 years of scheduled payments
- Retain a 2% NSR Royalty with the unilateral right to sell for a minimum of US\$ 2.0 million
- June 2025

Rubi Copper Project - Strategic Advancement

Agreement to Purchase

- US\$4.0 million sale to San Lorenzo Gold over 6 years of scheduled payments
- Retain a 2% NSR Royalty
- June 2026

Nord Project - Located Adjacent to Development

Agreement to Purchase

- US\$2.5 million sale to Pampa Camarones over 4 years of scheduled payments
- Retain a 2% NSR Royalty on Nord East and 1% NSR on Nord West
- July 2025

Sascha-Marcelina Projects - **Extracting Value**

Sale of Property

- US\$1.5 million sale to Pursuit Minerals
- Retain a 1.5% NSR Royalty
- December 2025

Pipeline of Opportunities - Income Generating Portfolio

Cash Flow from Project Sales

Sobek - Targeting Metallogenic Gaps

Mirasol's Project Generation Initiatives in the Andes along the Chile/Arg Border

- Identifying NNW trending trans-Andean lineaments, which are the key controls in almost all major deposits in Chile/Arg
- Looking for “GAPS” in the metallogenics, meaning “lack of advanced projects/mines within the GAP.”
- In this case with the Sobek area, we have the globally recognized districts of the Maricunga to the north and the El Indio Belts to the south of the GAP.

Sobek - Strategically Positioned in the Vicuña District

Surrounded by Titans

- BHP & Lundin Mining: Filo del Sol & Josemaria
- NGEx: Lunahuasi & Los Helados
- Rio Tinto & Mogotes Metals: Filo Sur
- Barrick
- Codelco

BHP & Lundin - Filo Acquisition

- \$4.5 B
- Largest purchase price for a copper junior

Rio Tinto - Strategic Investment

- \$15 M Investment in Mogotes

Vicuña District - Giant Copper-Gold-Silver District

- Sobek & Rosita - located in the globally recognized Vicuña copper-gold district
- Mio-Pliocene age mineral belt, northern Chile
- Porphyry Copper / HSE Gold Project
- Staked based on prospective local geology and structural architecture
- 9,640 ha, 100% owned Sobek Property
- 4,600 ha, 80% earn-in Rosita Property with SQM
- 7 km west of Filo del Sol with Josemaria to the east and Los Helados to the north
- 3 km west of new Lunahuasi discovery by NGEx Minerals
- 3-hour drive from Copiapo along 114kms of paved highway, and 40kms of well-maintained gravel roads

Sobek & SQM Rosita - Advancing Towards Discovery

Systematic & Thorough Exploration

- Initial 2,700km regional Heli-Air Mag survey of the district
- Property wide reconnaissance level prospecting
- Property wide stream sediment geochemical sampling
- +500km Airborne Heli-MT survey
- Detail grid-based geochemical soil sampling El Potro & VN Zone
- Ground based Electrical IP/Gradient Array Geophysics (Resistivity/Chargeability)
- **Multiple Drill Targets Identified**

Sobek & SQM Rosita - Regional Magnetic Architecture

Sobek Central - Green Wall Target

Green Wall Target - Mineralized Copper Rich Trend

Green Wall - Distinct Mineralized Geochemical Domains

Anomalous Copper & Gold in Select Rock Samples

Sample	Cu (%)	Au (g/t)	Ag (g/t)	Mo (ppm)

*malachite, azurite, chrysocolla
chalcopyrite, chalcocite, covellite
and relict bornite*

Green Wall - Arborne Mag Supports Mineralized Corridor

Green Wall - Target Summary

Sobek Central - VN ZoneTargets

VN Zone - Untested High-Grade Surface Mineralization

B. Banded black quartz vein

C. Quartz-magnetite veinlets

VN Zone - Ground IP-PDP Supports Drill Targeting

VN Zone South - Deep Magnetic Resistivity Contrast

MT flight line 1700

VN Zone - A High-Priority Drill Target

*Black Qtz-Mgt “Maricunga Type”
Veinlets in Altered Dacite Porphyry*

Sobek South - Early-Stage District Scale Opportunity

Sobek South - Unexplored District Scale Potential

Sobek South - Favorable Host Rocks with Au-Cu Evidence

Sobek South - Airborne Geophysics First-Pass Priorities

Upcoming News Flow - Potential Catalysts

Exploration Season Oct'26 – Jun'27

- Continue to Execute on Business Development
- Launch 26/27 Exploration Program
- Electrical IP-Geophysics at Green Wall
- Refine and Drill Vein Zone & Green Wall Targets
